

Lot 11 EP Cambridge Soloist

SOLID WHITE HUACAYA FEMALE

on account of Matthew & Cathy Lloyd 08 8389 7199

DOB 19/12/08 • IAR 138089

Soloist is a combination of the most elite, high-impact genetics ever released by EP Cambridge.

Her Sire and Grandsire exhibit advanced fleece characteristics. Both possess and pass on an extremely dense, lustrous fleece with fine, high frequency crimp with definition that is simply exquisite. Soloist is no exception with each of these traits plain to see in her own fleece.

Her demeanour resembles her form – perfection. Soloist is a female destined to breed the exceptional.
